(1) Many of the skills, capabilities, and resources that the Armed Forces have developed to meet military requirements can assist in meeting the civilian domestic needs of the United States.

(3) As a result of the reductions in the Armed Forces resulting from the ending of the Cold War, the Armed Forces will have fewer overseas deployments and lower operating tempos, and there will be a much greater opportunity than in the past for the Armed Forces to assist civilian efforts to address critical domestic problems.

(4) The United States has significant domestic needs in areas such as health care, nutrition, education, housing, and infrastructure that cannot be met by current and anticipated governmental and private sector programs.

(5) There are significant opportunities for the resources of the Armed Forces, which are maintained for national security purposes, to be applied in cooperative efforts with civilian officials to address these vital domestic needs.

(6) Civil-military cooperative efforts can be undertaken in a manner that is consistent with the military mission and does not compete with the private sector.

SEC. 1072. LANDMINE MORATORIUM ACT.

(a) This section shall be titled the "Landmine Moratorium Act of 1992".

(b) FINDINGS.—The Congress makes the following findings:

(1) Anti-personnel landmines, which are specifically designed to maim and kill people, have been used indiscriminately in dramatically increasing numbers, primarily in insurgencies in poor developing countries. Noncombatant civilians, including tens of thousands of children, have been the primary victims.

(2) Unlike other military weapons, landmines often remain implanted and undiscovered after conflict has ended, causing untold suffering to civilian populations. In countries like Afghanistan, Cambodia, Laos, Vietnam, and Angola, tens of millions of unexploded landmines have rendered whole areas uninhabitable. In Afghanistan, an estimated hundreds of thousands of people have been maimed and killed by landmines during the 14-year civil war. In Cambodia, more than 20,000 civilians have lost limbs and another 60 are being maimed each month from landmines.

(3) Over 35 countries are known to manufacture landmines, including the United States. However, the United States is not a major exporter of landmines. During the past ten years the Department of State has approved ten licenses for the commercial export of anti-personnel landmines valued at $980,000, and during the past five years the Department of Defense has approved the sale of 13,156 anti-personnel landmines valued at $841,145.

(4) The United States signed, but has not ratified, the 1981 Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed To Be Excessively Injurious or To Have Indiscriminate Effects. The Convention prohibits the indiscriminate use of landmines.

(5) When it signed the Convention, the United States stated: "We believe that the Convention represents a positive step forward in efforts to minimize injury or damage to the civilian population in time of armed conflict. Our signature of the Convention reflects the general willingness of the United States to adopt practical and reasonable provisions concerning the conduct of military operations, for the purpose of protecting noncombatants.".

(6) The Administration should submit the convention to the Senate for ratification, and the President should actively negotiate under United Nations or other auspices an international agreement, or a modification of the Convention, to prohibit the sale, transfer or export of anti-personnel landmines. This would be an appropriate response to the end of the Cold War and the promotion of arms control agreements to reduce the indiscriminate killing and maiming of civilians.

(7) The United States should set an example for other countries in such negotiations, by implementing a one-year moratorium on the sale, transfer or export of anti-personnel landmines.

(c) STATEMENT OF POLICY.—

(1) It shall be the policy of the United States to seek verifiable international agreements prohibiting the sale, transfer or export, and further limiting the use, production, possession and deployment of anti-personnel landmines.

(2) It is the sense of the Congress that the President should actively seek to negotiate under United Nations or other auspices an international agreement, or a modification of the Convention, to prohibit the sale, transfer or export of anti-personnel landmines.

(d) MORATORIUM ON TRANSFERS OF ANTI-PERSONNEL LANDMINES ABROAD.—For a period of 1 year beginning on the date of enactment of this Act—

(1) no sale may be made or financed, no transfer may be made, and no license for export may be issued, under the Arms Export Control Act, with respect to any anti-personnel landmine; and

(2) no assistance may be provided under the Foreign Assistance Act of 1961, with respect to the provision of any anti-personnel landmine.

(e) DEFINITION.—For purposes of this section, the term "anti-personnel landmine" means—

(1) any munition placed under, on, or near the ground or other surface area, or delivered by artillery, rocket, mortar, or similar means or dropped from an aircraft and which is designed to be detonated or exploded by the presence, proximity, or contact of a person;

(2) any device or material which is designed, constructed, or adapted to kill or injure and which functions unexpectedly when a person disturbs or approaches an apparently harmless object or performs an apparently safe act;

(3) any manually-emplaced munition or device designed to kill, injure, or damage and which is actuated by remote control or automatically after a lapse of time.

SEC. 1073. REPORT ON POSSIBLE REVISIONS TO THE NORTH ATLANTIC TREATY.

(a) FINDINGS.—The Congress finds that—

(1) when the North Atlantic Treaty was signed in 1949, the clear military threat to the security of Western Europe was the Soviet Union and its allies in Eastern Europe;

(2) since 1949 it has been clearly understood by the people of the Western World that the primary mission of NATO was to deter an attack from the Soviet Bloc;

(3) the dramatic changes in Europe since the fall of the Berlin Wall in 1989, and the subsequent dissolution of the Warsaw Pact and the Soviet Union have fundamentally changed the security situation in Europe;

(4) one of the consequences of the breakdown of 40 years of Communist rule in Eastern Europe and the former Soviet Union has been ethnic conflict throughout the region, particularly in the Balkans and the Republics of the Former Soviet Union;

(5) those fundamental changes in the security threats facing NATO member nations have caused confusion concerning the mission of NATO in the post-cold war world and the role of NATO military forces outside of the NATO Theater, particularly in the former Soviet Union; and

(6) a fundamental review of the North Atlantic Treaty is necessary, in light of the new security situation in Europe.

(b) REPORT.—The Secretary of Defense, in consultation with the Secretary of State, shall provide a report to the Congress, by April 1, 1993, which includes—

(1) a detailed analysis of the forseeable threats to the security of NATO member nations;

(2) a determination whether or not there is a requirement for the member nations of NATO to revise the North Atlantic Treaty of 1949 to meet the future challenges to their peace and security; and

(3) the extent to which the charter permits the use of NATO forces for peacekeeping purposes, given the steadily increased use of military forces for such purposes, and the range of missions that should be considered for such peacekeeping to protect the interests of member nations

SEC. 1074. POW/MIA STAMP.

(a) Congress finds that—

(1) the President has declared the POW/MIA issue to be of highest national priority;

(2) there are over 88,000 missing United States service personnel from World War II, the Korean War, and the Vietnam War;

(3) public awareness of the sacrifices which have been and may continue to be made by American prisoners of war and Americans missing in action is critical to advancing efforts to obtain the return of missing American service personnel.

(b) The Postmaster General shall issue a commemorative postage stamp in honor of American prisoners of war and Americans missing in action. Such a stamp shall be issued and sold for such a period as the Postmaster General shall determine.

SEC. 1075. SUPPORT FOR INTERNATIONAL NONPROLIFERATION ACTIVITIES.

(a) FINDINGS.—The Congress makes the following findings:

(1) The proliferation of nuclear, chemical and biological weapons and related technology and know how and of missile delivery systems remains a serious threat to international peace and security in the post-Cold War era.

(2) The United States should seek to limit the supply of nuclear, chemical and biological weapons, related technology and know how and of missile delivery systems, and the demand for such weapons and should undertake to reduce the threat from such proliferation.

(3) International nonproliferation activities serve the national security interests of the United States.

(4) The Department of Defense and the Department of Energy have expertise and equipment that has enhanced the effectiveness of international nuclear nonproliferation activities.

(5) The use of funds made available under the regular budget process one year in advance or the use of reprogrammed funds may be insufficient to satisfy the need for funds and other support for international nonproliferation activities.

(6) Greater flexibility may be needed to ensure the timely availability of funding to support international nonproliferation activities.

(b) ASSISTANCE FOR NONPROLIFERATION ACTIVITIES.—(1) Subject to the limitations and requirements provided in this section, during fiscal year 1993 the Secretary of Defense may furnish funds, supplies, and equipment to support international nonproliferation activities, including activities carried out by the International Atomic Energy Agency, that are designed to ensure more aggressive full-scope safeguards and more aggressive verification of compliance with the Treaty on the Non-Proliferation of Nuclear Weapons, done on July 1, 1968.

(2) Assistance may be provided in the form of funds under paragraph (1) only if the amount in the "Contributions to International Organizations" account of the Department of State is insufficient or otherwise unavailable to meet the United States fair share of assessments for international nuclear nonproliferation activities.

(3) No assistance may be furnished pursuant to paragraph (1) unless the Secretary of Defense determines and certifies to the Congress 30 days in advance that the provision of such assistance—

(A) is in the national security interest of the United States; and

(B) will not adversely affect the military preparedness of the United States.

(4) No amount may be obligated for an expenditure pursuant to paragraph (1) unless the Director of the Office of Management and Budget determines that the expenditure will be counted against the defense category of the discretionary spending limits for fiscal year 1993 (as defined in section 601(a)(2) of the Congressional Budget Act of 1974) for purposes of part C of the Balanced Budget and Emergency Deficit Control Act of 1985.

(5) In paragraph (1), the term "full-scope safeguards" means the safeguards set forth in an agreement between a country and the International Atomic Energy Agency, as authorized by Article III(A)(5) of the Statute of the International Atomic Energy Agency.

(c) ASSISTANCE FOR INSPECTIONS REGARDING IRAQ.—During fiscal year 1993 the Secretary of Defense may provide funds for the activities of the On-Site Inspection Agency in support of the United Nations Special Commission on Iraq.

(d) AUTHORITY SUBJECT TO APPROPRIATIONS ACTS.—The authority to provide assistance in the form of funds under subsection (b) or (c) may be exercised only to the extent and in the amounts provided in appropriations Acts.

(e) FUNDING LIMITATIONS.—(1) The total amount of the assistance provided in the form of funds under subsection (b) may not exceed $20,000,000.

(2) The total amount of the assistance provided in the form of funds under subsection (c) may not exceed $20,000,000.

(f) SOURCES OF ASSISTANCE.—(1) Funds provided as assistance under subsection (b) or (c) shall be derived from amounts made available to the Department of Defense for fiscal year 1993 or from balances in working capital accounts of the Department of Defense.

(2) Supplies and equipment provided as assistance under subsection (b) may be provided, by loan or donation, from existing stocks of the Department of Defense.

(g) REPORT REQUIRED.—Not less than 30 days before obligating any funds to provide assistance pursuant to subsection (b) or (c), the Secretary of Defense shall transmit to Congress a report on the proposed obligation. The report shall specify—

(1) the account, budget activity, and particular program or programs from which the funds proposed to be obligated are to be derived and the amount of the proposed obligation; and

(2) the activities and forms of assistance for which the Secretary of Defense plans to obligate such funds.

(h) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) Robust funding of nonproliferation activities and related technology development is essential to controlling the proliferation of nuclear, chemical, and biological weapons and their delivery vehicles, which remains one of the highest national security priorities of the United States;

(2) The President's initiative to increase funding for nonproliferation activities and related technology development in the Department of Energy is praiseworthy and represents a significant step toward an appropriate level of support for nonproliferation activities;

(3) The President should undertake to identify a full range of appropriate, high priority nonproliferation activities and related technology development programs, including particularly space-based detection systems, and should include full funding for these activities and technologies in the budget requests of the Department of Energy and the Department of Defense for fiscal year 1994; and

(4) The Congress is committed to cooperating with the President in carrying out an effective policy designed to control the proliferation of weapons of mass destruction.

SEC. 1076. SUPPORT FOR PEACEKEEPING ACTIVITIES.

(a) FINDINGS.—The Congress makes the following findings:

(1) International peacekeeping activities contribute to the national interests of the United States in maintaining global stability and order.

(2) International peacekeeping activities take many forms and include observer missions, ceasefire monitoring, human rights monitoring, refugee and humanitarian assistance, monitoring and conducting elections, monitoring of police in the demobilization of former combatants, and reforming judicial and other civil and administrative systems of government.

(3) International peacekeeping activities traditionally involve the presence of military troops, police forces, and, in recent years, civilian experts in transportation, logistics, medicine, electoral systems, human rights, land tenure, other economic and social issues, and other areas of expertise.

(4) International peacekeeping interests serve both the foreign policy interests and defense policy interests of the United States.

(5) The normal budget process of authorizing and appropriating funds a year in advance and reprogramming such funds is insufficient to satisfy the need for funds for peacekeeping efforts arising from an unanticipated crisis.

(6) Greater flexibility is needed to ensure the timely availability of funding to provide for peacekeeping activities.

(b) AUTHORIZED SUPPORT FOR FISCAL YEAR 1993.—(1) Subject to paragraph (2), the Secretary may provide assistance for international peacekeeping activities during fiscal year 1993 in an amount not to exceed $300,000,000 in accordance with section 403 of title 10, United States Code, as added by subsection (c). Notwithstanding subsection (b) of that section, the assistance so provided may be derived from funds appropriated to the Department of Defense for fiscal year 1993 for operation and maintenance or from balances in working capital accounts.

(2) No amount may be obligated pursuant to paragraph (1) unless the expenditure of such amount has been determined by the Director of the Office of Management and Budget to be counted against the defense category of the discretionary spending limits for fiscal year 1993 (as defined in section 601(a)(2) of the Congressional Budget Act of 1974) for purposes of part C of the Balanced Budget and Emergency Deficit Control Act of 1985.

(c) AUTHORIZATION.—(1) Chapter 20 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 403. International peacekeeping activities

"(a) AUTHORITY.—To the extent provided in defense authorization Acts and appropriations Acts, the Secretary of Defense may furnish assistance, by loan or contribution, in support of international peacekeeping activities of the United Nations or any regional organization of which the United States is a member.

"(b) FORMS OF ASSISTANCE.—Assistance provided under subsection (a) may include funds, supplies, and equipment. Any funds so provided shall be derived from amounts available to the Department of Defense for the fiscal year for which the assistance is provided.

"(c) Limitations Related to Availability of State Department Funds.—Funds may be provided as assistance pursuant to subsection (a) for a fiscal year—

"(1) only if funds available to the Department of State for that fiscal year for contributions for international peacekeeping activities are insufficient or otherwise unavailable to meet the United States' fair share of assessments for international peacekeeping activities, as determined by the President; and

"(2) only to the extent that the United States' fair share of such assessments exceeds the amount that the President requests Congress to appropriate for the Department of State for such fiscal year for international peacekeeping activities.

"(d) Consultation.—The Secretary of Defense shall consult with the Secretary of State before furnishing any assistance pursuant to subsection (a).

"(e) Determinations Required.—No assistance may be furnished pursuant to subsection (a) unless the Secretary of Defense certifies to Congress that the provision of such assistance—

"(1) is in the national security interest of the United States; and

"(2) will not adversely affect the military preparedness of the United States.

"(f) Advance Notice to Congress.—Not less than 30 days before obligating any funds for purposes of subsection (a), the Secretary of Defense shall transmit to Congress a report on the proposed obligation. The report shall—

"(1) specify the account, budget activity, and particular program or programs from which the funds proposed to be obligated are to be derived and the amount of the proposed obligation;

"(2) specify the activities and forms of assistance for which the Secretary of Defense plans to obligate such funds; and

"(3) include the certification required by subsection (e).

"(g) Definition.—In this section, the term 'defense authorization Act' means an Act that authorizes appropriations for one or more fiscal years for military activities of the Department of Defense, including the activities described in paragraph (7) of section 114(a) of this title.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following:

"403. International peacekeeping activities.".

SEC. 1077. NATIONAL DEFENSE SEALIFT FUND.

"(b) Funds may be deposited in the National Defense Sealift Fund only as specifically authorized in law.

(A) the foreign person or United States person with respect to which the President makes the determination described in that paragraph;

(A) in the case of procurement of defense articles or defense services—

(i) under existing contracts or subcontracts, including the exercise of options for production quantities to satisfy United States operational military requirements;

(ii) if the President determines that the person or other entity to which the sanctions would otherwise be applied is a sole source supplier of the defense articles or services, that the defense articles or services are essential, and that alternative sources are not readily or reasonably available; or

(2) To increase the opportunities for small businesses, including socially and economically disadvantaged small business concerns and new small businesses, to use such facilities for those purposes.

Subtitle I—Defense Conversion and Transition Assistance

SEC. 1099A. FINDINGS AND POLICY.

(a) FINDINGS.—Congress makes the following findings:

(1) The collapse of communism in Eastern Europe and the dissolution of the Soviet Union have fundamentally changed the military threat that formed the basis for the national security policy of the United States since the end of World War II.

(2) The change in the military threat presents a unique opportunity to restructure and reduce the military requirements of the United States.

(3) As the United States proceeds with the post-Cold War defense build down, the Nation must recognize and address the impact of reduced defense spending on the military personnel, civilian employees, and defense industry workers who have been the foundation of the national defense policies of the United States.

(4) The defense build down will have a significant impact on communities as procurements are reduced and military installations are closed and realigned.

(5) Despite the changes in the military threat, the United States must maintain the capability to respond to regional conflicts that threaten the national interests of the United States, and to reconstitute forces in the event of an extended conflict.

(6) The skills and capabilities of military personnel, civilian employees of the Department of Defense, defense industry workers, and defense industries represent an invaluable national resource that can contribute to the economic growth of the United States and to the long-term vitality of the national defense technology and industrial base.

(7) Prompt and vigorous implementation of a defense conversion and transition assistance program is essential to ensure that the defense build down is structured in a manner that enhances the long-term ability of the United States to maintain a strong and vibrant national defense technology and industrial base.

(b) POLICY.—(1) It is the policy of Congress that the United States attain its national defense objectives through the development and implementation of defense conversion and transition assistance programs that have the following objectives:

(A) Facilitating the transition of military personnel, civilian employees of the United States, and defense industry workers affected by the defense build down in a manner which recognizes the contributions of those individuals to the national defense and promotes continued national access to, and benefit from, their skills and capabilities.

(B) Assisting communities in adjusting to the impact of reduced defense spending in recognition of the contributions that such communities have made to the national defense of the United States.

(C) Strengthening the ability of the national defense technology and industrial base to meet the following national security objectives:

(i) Supplying and equipping the force structure necessary to meet near-term national security requirements.

(ii) Sustaining production, maintenance, repair, and logistics for operations of various durations and intensity.

(iii) Maintaining advanced research and development activities to provide the Armed Forces of the United States with systems capable of ensuring technological superiority over potential adversaries.

(iv) Reconstituting within a reasonable period the capability to develop and produce supplies and equipment, including technologically advanced systems, in sufficient quantities to prepare fully for a major war, major national emergency, or major mobilization of the Armed Forces.

(D) Achieving the national defense technology and industrial base objectives described in subparagraph (C) by enhancing the opportunities for conversion of defense-dependent businesses to dual-use capabilities.

(2) It is the policy of Congress that not less than $1,200,000,000 of the funds authorized to be appropriated by this Act be available for defense conversion and transition assistance programs.

TITLE XII—CUBAN DEMOCRACY ACT OF 1992

SEC. 1201. SHORT TITLE.

This title may be cited as the "Cuban Democracy Act of 1992".

SEC. 1202. FINDINGS.

The Congress makes the following findings:

(1) The government of Fidel Castro has demonstrated consistent disregard for internationally accepted standards of human rights and for democratic values. It restricts the Cuban people's exercise of freedom of speech, press, assembly, and other rights recognized by the Universal Declaration of Human Rights adopted by the General Assembly of the United Nations on December 10, 1948. It has refused to admit into Cuba the representative of the United Nations Human

Rights Commission appointed to investigate human rights violations on the island.

(2) The Cuban people have demonstrated their yearning for freedom and their increasing opposition to the Castro government by risking their lives in organizing independent, democratic activities on the island and by undertaking hazardous flights for freedom to the United States and other countries.

(3) The Castro government maintains a military-dominated economy that has decreased the well-being of the Cuban people in order to enable the government to engage in military interventions and subversive activities throughout the world and, especially, in the Western Hemisphere. These have included involvement in narcotics trafficking and support for the FMLN guerrillas in El Salvador.

(4) There is no sign that the Castro regime is prepared to make any significant concessions to democracy or to undertake any form of democratic opening. Efforts to suppress dissent through intimidation, imprisonment, and exile have accelerated since the political changes that have occurred in the former Soviet Union and Eastern Europe.

(5) Events in the former Soviet Union and Eastern Europe have dramatically reduced Cuba's external support and threaten Cuba's food and oil supplies.

(6) The fall of communism in the former Soviet Union and Eastern Europe, the now universal recognition in Latin America and the Caribbean that Cuba provides a failed model of government and development, and the evident inability of Cuba's economy to survive current trends, provide the United States and the international democratic community with an unprecedented opportunity to promote a peaceful transition to democracy in Cuba.

(7) However, Castro's intransigence increases the likelihood that there could be a collapse of the Cuban economy, social upheaval, or widespread suffering. The recently concluded Cuban Communist Party Congress has underscored Castro's unwillingness to respond positively to increasing pressures for reform either from within the party or without.

(8) The United States cooperated with its European and other allies to assist the difficult transitions from Communist regimes in Eastern Europe. Therefore, it is appropriate for those allies to cooperate with United States policy to promote a peaceful transition in Cuba.

SEC. 1203. STATEMENT OF POLICY.

It should be the policy of the United States—

(1) to seek a peaceful transition to democracy and a resumption of economic growth in Cuba through the careful application of sanctions directed at the Castro government and support for the Cuban people;

(2) to seek the cooperation of other democratic countries in this policy;

(3) to make clear to other countries that, in determining its relations with them, the United States will take into account their willingness to cooperate in such a policy;

(4) to seek the speedy termination of any remaining military or technical assistance, subsidies, or other forms of assistance to the Government of Cuba from any of the independent states of the former Soviet Union;

(5) to continue vigorously to oppose the human rights violations of the Castro regime;

(6) to maintain sanctions on the Castro regime so long as it continues to refuse to move toward democratization and greater respect for human rights;

(7) to be prepared to reduce the sanctions in carefully calibrated ways in response to positive developments in Cuba;

(8) to encourage free and fair elections to determine Cuba's political future;

(9) to prevent Cuba from evading the United States embargo of that country through a North American Free Trade Agreement;

(10) to request the speedy termination of any military or technical assistance, subsidies, or other forms of assistance to the Government of Cuba from the government of any other country; and

(11) to initiate immediately the development of a comprehensive United States policy toward Cuba in a post-Castro era.

(i) donations of food to nongovernmental organizations or individuals in Cuba, or

(d) REQUIREMENTS FOR CERTAIN EXPORTS.—

(1) ONSITE VERIFICATIONS.—(A) Subject to subparagraph (B), an export may be made under subsection (c) only if the President determines that the United States Government is able to verify, by onsite inspections and other appropriate means, that the exported item is to be used for the purposes for which it was intended and only for the use and benefit of the Cuban people.

(B) EXCEPTION.—Subparagraph (A) does not apply to donations to nongovernmental organizations in Cuba of medicines for humanitarian purposes.

(2) LICENSES.—Exports permitted under subsection (c) shall be made pursuant to specific licenses issued by the United States Government.

(e) TELECOMMUNICATIONS SERVICES AND FACILITIES.—

(1) TELECOMMUNICATIONS SERVICES.—Telecommunications services between the United States and Cuba shall be permitted.

Accordingly, the Secretary of Defense shall transfer management and budget responsibility for research and development of all far-term follow-on technologies currently under the Strategic Defense Initiative Organization to the Defense Advanced Research Projects Agency (DARPA) or the appropriate military department, unless he determines and certifies to the congressional defense committees that transfer of a particular far-term follow-on technology currently under the Strategic Defense Initiative Organization would not be in the national security interests of the United States.

SEC. 1060. CIVIL-MILITARY COOPERATIVE ACTION PROGRAM.

(a) FINDINGS.—Congress makes the following findings:

(1) Many of the skills, capabilities, and resources that the Armed Forces have developed to meet military requirements can assist in meeting the civilian domestic needs of the United States.

(2) Members of the Armed Forces have the training, education, and experience to serve as role models for United States youth.

(3) As a result of the reductions in the Armed Forces resulting from the ending of the Cold War, the Armed Forces will have fewer overseas deployments and lower operating tempos, and there will be a much greater opportunity than in the past for the Armed Forces to assist civilian efforts to address critical domestic problems.

(4) The United States has significant domestic needs in areas such as health care, nutrition, education, housing, and infrastructure that cannot be met by current and anticipated governmental and private sector programs.

(5) There are significant opportunities for the resources of the Armed Forces, which are maintained for national security purposes, to be applied in cooperative efforts with civilian officials to address these vital domestic needs.

(6) Civil-military cooperative efforts can be undertaken in a manner that is consistent with the military mission and does not compete with the private sector.

SEC. 1072. LANDMINE MORATORIUM ACT.

(a) This section shall be titled the "Landmine Moratorium Act of 1992".

(b) FINDINGS.—The Congress makes the following findings:

(1) Anti-personnel landmines, which are specifically designed to maim and kill people, have been used indiscriminately in dramatically increasing numbers, primarily in insurgencies in poor developing countries. Noncombatant civilians, including tens of thousands of children, have been the primary victims.

(2) Unlike other military weapons, landmines often remain implanted and undiscovered after conflict has ended, causing untold suffering to civilian populations. In countries like Afghanistan, Cambodia, Laos, Vietnam, and Angola, tens of millions of unexploded landmines have rendered whole areas uninhabitable. In Afghanistan, an estimated hundreds of thousands of people have been maimed and killed by landmines during the 14-year civil war. In Cambodia, more than 20,000 civilians have lost limbs and another 60 are being maimed each month from landmines.

(3) Over 35 countries are known to manufacture landmines, including the United States. However, the United States is not a major exporter of landmines. During the past ten years the Department of State has approved ten licenses for the commercial export of anti-personnel landmines valued at $980,000, and during the past five years the Department of Defense has approved the sale of 13,156 anti-personnel landmines valued at $841,145.

(4) The United States signed, but has not ratified, the 1981 Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed To Be Excessively Injurious or To Have Indiscriminate Effects. The Convention prohibits the indiscriminate use of landmines.

(5) When it signed the Convention, the United States stated: "We believe that the Convention represents a positive step forward in efforts to minimize injury or damage to the civilian population in time of armed conflict. Our signature of the Convention reflects the general willingness of the United States to adopt practical and reasonable provisions concerning the conduct of military operations, for the purpose of protecting noncombatants.".

(6) The Administration should submit the convention to the Senate for ratification, and the President should actively negotiate under United Nations or other auspices an international agreement, or a modification of the Convention, to prohibit the sale, transfer or export of anti-personnel landmines. This would be an appropriate response to the end of the Cold War and the promotion of arms control agreements to reduce the indiscriminate killing and maiming of civilians.

(7) The United States should set an example for other countries in such negotiations, by implementing a one-year moratorium on the sale, transfer or export of anti-personnel landmines.

(c) STATEMENT OF POLICY.—

(1) It shall be the policy of the United States to seek verifiable international agreements prohibiting the sale, transfer or export, and further limiting the use, production, possession and deployment of anti-personnel landmines.

(2) It is the sense of the Congress that the President should actively seek to negotiate under United Nations or other auspices an international agreement, or a modification of the Convention, to prohibit the sale, transfer or export of anti-personnel landmines.

(d) MORATORIUM ON TRANSFERS OF ANTI-PERSONNEL LANDMINES ABROAD.—For a period of 1 year beginning on the date of enactment of this Act—

(1) no sale may be made or financed, no transfer may be made, and no license for export may be issued, under the Arms Export Control Act, with respect to any anti-personnel landmine; and

(2) no assistance may be provided under the Foreign Assistance Act of 1961, with respect to the provision of any anti-personnel landmine.

(e) DEFINITION.—For purposes of this section, the term "anti-personnel landmine" means—

(1) any munition placed under, on, or near the ground or other surface area, or delivered by artillery, rocket, mortar, or similar means or dropped from an aircraft and which is designed to be detonated or exploded by the presence, proximity, or contact of a person;

(2) any device or material which is designed, constructed, or adapted to kill or injure and which functions unexpectedly when a person disturbs or approaches an apparently harmless object or performs an apparently safe act;

(3) any manually-emplaced munition or device designed to kill, injure, or damage and which is actuated by remote control or automatically after a lapse of time.

SEC. 1073. REPORT ON POSSIBLE REVISIONS TO THE NORTH ATLANTIC TREATY.

(a) FINDINGS.—The Congress finds that—

(1) when the North Atlantic Treaty was signed in 1949, the clear military threat to the security of Western Europe was the Soviet Union and its allies in Eastern Europe;

(2) since 1949 it has been clearly understood by the people of the Western World that the primary mission of NATO was to deter an attack from the Soviet Bloc;

(3) the dramatic changes in Europe since the fall of the Berlin Wall in 1989, and the subsequent dissolution of the Warsaw Pact and the Soviet Union have fundamentally changed the security situation in Europe;

(4) one of the consequences of the breakdown of 40 years of Communist rule in Eastern Europe and the former Soviet Union has been ethnic conflict throughout the region, particularly in the Balkans and the Republics of the Former Soviet Union;

(5) those fundamental changes in the security threats facing NATO member nations have caused confusion concerning the mission of NATO in the post-cold war world and the role of NATO military forces outside of the NATO Theater, particularly in the former Soviet Union; and

(6) a fundamental review of the North Atlantic Treaty is necessary, in light of the new security situation in Europe.

(b) REPORT.—The Secretary of Defense, in consultation with the Secretary of State, shall provide a report to the Congress, by April 1, 1993, which includes—

(1) a detailed analysis of the forseeable threats to the security of NATO member nations;

(2) a determination whether or not there is a requirement for the member nations of NATO to revise the North Atlantic Treaty of 1949 to meet the future challenges to their peace and security; and

(3) the extent to which the charter permits the use of NATO forces for peacekeeping purposes, given the steadily increased use of military forces for such purposes, and the range of missions that should be considered for such peacekeeping to protect the interests of member nations

SEC. 1074. POW/MIA STAMP.

(a) Congress finds that—

(1) the President has declared the POW/MIA issue to be of highest national priority;

(2) there are over 88,000 missing United States service personnel from World War II, the Korean War, and the Vietnam War;

(3) public awareness of the sacrifices which have been and may continue to be made by American prisoners of war and Americans missing in action is critical to advancing efforts to obtain the return of missing American service personnel.

(b) The Postmaster General shall issue a commemorative postage stamp in honor of American prisoners of war and Americans missing in action. Such a stamp shall be issued and sold for such a period as the Postmaster General shall determine.

SEC. 1075. SUPPORT FOR INTERNATIONAL NONPROLIFERATION ACTIVITIES.

(a) FINDINGS.—The Congress makes the following findings:

(1) The proliferation of nuclear, chemical and biological weapons and related technology and know how and of missile delivery systems remains a serious threat to international peace and security in the post-Cold War era.

(2) The United States should seek to limit the supply of nuclear, chemical and biological weapons, related technology and know how and of missile delivery systems, and the demand for such weapons and should undertake to reduce the threat from such proliferation.

(3) International nonproliferation activities serve the national security interests of the United States.

(4) The Department of Defense and the Department of Energy have expertise and equipment that has enhanced the effectiveness of international nuclear nonproliferation activities.

(5) The use of funds made available under the regular budget process one year in advance or the use of reprogrammed funds may be insufficient to satisfy the need for funds and other support for international nonproliferation activities.

(6) Greater flexibility may be needed to ensure the timely availability of funding to support international nonproliferation activities.

(b) ASSISTANCE FOR NONPROLIFERATION ACTIVITIES.—(1) Subject to the limitations and requirements provided in this section, during fiscal year 1993 the Secretary of Defense may furnish funds, supplies, and equipment to support international nonproliferation activities, including activities carried out by the International Atomic Energy Agency, that are designed to ensure more aggressive full-scope safeguards and more aggressive verification of compliance with the Treaty on the Non-Proliferation of Nuclear Weapons, done on July 1, 1968.

(2) Assistance may be provided in the form of funds under paragraph (1) only if the amount in the "Contributions to International Organizations" account of the Department of State is insufficient or otherwise unavailable to meet the United States fair share of assessments for international nuclear nonproliferation activities.

(3) No assistance may be furnished pursuant to paragraph (1) unless the Secretary of Defense determines and certifies to the Congress 30 days in advance that the provision of such assistance—

(A) is in the national security interest of the United States; and

(B) will not adversely affect the military preparedness of the United States.

(4) No amount may be obligated for an expenditure pursuant to paragraph (1) unless the Director of the Office of Management and Budget determines that the expenditure will be counted against the defense category of the discretionary spending limits for fiscal year 1993 (as defined in section 601(a)(2) of the Congressional Budget Act of 1974) for purposes of part C of the Balanced Budget and Emergency Deficit Control Act of 1985.

(5) In paragraph (1), the term "full-scope safeguards" means the safeguards set forth in an agreement between a country and the International Atomic Energy Agency, as authorized by Article III(A)(5) of the Statute of the International Atomic Energy Agency.

(c) ASSISTANCE FOR INSPECTIONS REGARDING IRAQ.—During fiscal year 1993 the Secretary of Defense may provide funds for the activities of the On-Site Inspection Agency in support of the United Nations Special Commission on Iraq.

(d) AUTHORITY SUBJECT TO APPROPRIATIONS ACTS.—The authority to provide assistance in the form of funds under subsection (b) or (c) may be exercised only to the extent and in the amounts provided in appropriations Acts.

(e) FUNDING LIMITATIONS.—(1) The total amount of the assistance provided in the form of funds under subsection (b) may not exceed $20,000,000.

(2) The total amount of the assistance provided in the form of funds under subsection (c) may not exceed $20,000,000.

(f) SOURCES OF ASSISTANCE.—(1) Funds provided as assistance under subsection (b) or (c) shall be derived from amounts made available to the Department of Defense for fiscal year 1993 or from balances in working capital accounts of the Department of Defense.

(2) Supplies and equipment provided as assistance under subsection (b) may be provided, by loan or donation, from existing stocks of the Department of Defense.

(g) REPORT REQUIRED.—Not less than 30 days before obligating any funds to provide assistance pursuant to subsection (b) or (c), the Secretary of Defense shall transmit to Congress a report on the proposed obligation. The report shall specify—

(1) the account, budget activity, and particular program or programs from which the funds proposed to be obligated are to be derived and the amount of the proposed obligation; and

(2) the activities and forms of assistance for which the Secretary of Defense plans to obligate such funds.

(h) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) Robust funding of nonproliferation activities and related technology development is essential to controlling the proliferation of nuclear, chemical, and biological weapons and their delivery vehicles, which remains one of the highest national security priorities of the United States;

(2) The President's initiative to increase funding for nonproliferation activities and related technology development in the Department of Energy is praiseworthy and represents a significant step toward an appropriate level of support for nonproliferation activities;

(3) The President should undertake to identify a full range of appropriate, high priority nonproliferation activities and related technology development programs, including particularly space-based detection systems, and should include full funding for these activities and technologies in the budget requests of the Department of Energy and the

Department of Defense for fiscal year 1994; and

(4) The Congress is committed to cooperating with the President in carrying out an effective policy designed to control the proliferation of weapons of mass destruction.

SEC. 1076. SUPPORT FOR PEACEKEEPING ACTIVITIES.

(a) FINDINGS.—The Congress makes the following findings:

(1) International peacekeeping activities contribute to the national interests of the United States in maintaining global stability and order.

(2) International peacekeeping activities take many forms and include observer missions, ceasefire monitoring, human rights monitoring, refugee and humanitarian assistance, monitoring and conducting elections, monitoring of police in the demobilization of former combatants, and reforming judicial and other civil and administrative systems of government.

(3) International peacekeeping activities traditionally involve the presence of military troops, police forces, and, in recent years, civilian experts in transportation, logistics, medicine, electoral systems, human rights, land tenure, other economic and social issues, and other areas of expertise.

(4) International peacekeeping interests serve both the foreign policy interests and defense policy interests of the United States.

(5) The normal budget process of authorizing and appropriating funds a year in advance and reprogramming such funds is insufficient to satisfy the need for funds for peacekeeping efforts arising from an unanticipated crisis.

(6) Greater flexibility is needed to ensure the timely availability of funding to provide for peacekeeping activities.

(b) AUTHORIZED SUPPORT FOR FISCAL YEAR 1993.—(1) Subject to paragraph (2), the Secretary may provide assistance for international peacekeeping activities during fiscal year 1993 in an amount not to exceed $300,000,000 in accordance with section 403 of title 10, United States Code, as added by subsection (c). Notwithstanding subsection (b) of that section, the assistance so provided may be derived from funds appropriated to the Department of Defense for fiscal year 1993 for operation and maintenance or from balances in working capital accounts.

(2) No amount may be obligated pursuant to paragraph (1) unless the expenditure of such amount has been determined by the Director of the Office of Management and Budget to be counted against the defense category of the discretionary spending limits for fiscal year 1993 (as defined in section 601(a)(2) of the Congressional Budget Act of 1974) for purposes of part C of the Balanced Budget and Emergency Deficit Control Act of 1985.

(c) AUTHORIZATION.—(1) Chapter 20 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 403. International peacekeeping activities

"(b) FORMS OF ASSISTANCE.—Assistance provided under subsection (a) may include funds, supplies, and equipment. Any funds so provided shall be derived from amounts available to the Department of Defense for the fiscal year for which the assistance is provided.

"(c) LIMITATIONS RELATED TO AVAILABILITY OF STATE DEPARTMENT FUNDS.—Funds may be provided as assistance pursuant to subsection (a) for a fiscal year—

"(1) only if funds available to the Department of State for that fiscal year for contributions for international peacekeeping activities are insufficient or otherwise unavailable to meet the United States' fair share of assessments for international peacekeeping activities, as determined by the President; and

"(2) only to the extent that the United States' fair share of such assessments exceeds the amount that the President requests Congress to appropriate for the Department of State for such fiscal year for international peacekeeping activities.

"(d) CONSULTATION.—The Secretary of Defense shall consult with the Secretary of State before furnishing any assistance pursuant to subsection (a).

"(e) DETERMINATIONS REQUIRED.—No assistance may be furnished pursuant to subsection (a) unless the Secretary of Defense certifies to Congress that the provision of such assistance—

"(1) is in the national security interest of the United States; and

"(2) will not adversely affect the military preparedness of the United States.

"(f) ADVANCE NOTICE TO CONGRESS.—Not less than 30 days before obligating any funds for purposes of subsection (a), the Secretary of Defense shall transmit to Congress a report on the proposed obligation. The report shall—

"(1) specify the account, budget activity, and particular program or programs from which the funds proposed to be obligated are to be derived and the amount of the proposed obligation;

"(2) specify the activities and forms of assistance for which the Secretary of Defense plans to obligate such funds; and

"(3) include the certification required by subsection (e).

"(g) DEFINITION.—In this section, the term 'defense authorization Act' means an Act that authorizes appropriations for one or more fiscal years for military activities of the Department of Defense, including the activities described in paragraph (7) of section 114(a) of this title.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following:

"403. International peacekeeping activities.".

(B) through the export from any other country of any goods or technology that would be, if they were exported from the United States, subject to the jurisdiction of the United States,

to the efforts by any individual, group, or non-nuclear-weapon state to acquire unsafeguarded special nuclear material or to use, develop, produce, stockpile, or otherwise acquire any nuclear explosive device, whether or not the goods or technology is specifically designed or modified for that purpose.

terminate the involvement of the foreign person in the activities described in subsection (a)(1). (2) To increase the opportunities for small businesses, including socially and economically disadvantaged small business concerns and new small businesses, to use such facilities for those purposes.

(B) to enter into multiyear subcontracts for the commercial use of the facility consistent with such purposes.

(2) The authority in paragraph (1) may be exercised only to such extent and in such amounts as are provided in appropriations Acts.

Subtitle I—Defense Conversion and Transition Assistance

SEC. 1099A. FINDINGS AND POLICY.

(a) FINDINGS.—Congress makes the following findings:

(1) The collapse of communism in Eastern Europe and the dissolution of the Soviet Union have fundamentally changed the military threat that formed the basis for the national security policy of the United States since the end of World War II.

(2) The change in the military threat presents a unique opportunity to restructure and reduce the military requirements of the United States.

(3) As the United States proceeds with the post-Cold War defense build down, the Nation must recognize and address the impact of reduced defense spending on the military personnel, civilian employees, and defense industry workers who have been the foundation of the national defense policies of the United States.

(4) The defense build down will have a significant impact on communities as procurements are reduced and military installations are closed and realigned.

(5) Despite the changes in the military threat, the United States must maintain the capability to respond to regional conflicts that threaten the national interests of the United States, and to reconstitute forces in the event of an extended conflict.

(6) The skills and capabilities of military personnel, civilian employees of the Department of Defense, defense industry workers, and defense industries represent an invaluable national resource that can contribute to the economic growth of the United States and to the long-term vitality of the national defense technology and industrial base.

(7) Prompt and vigorous implementation of a defense conversion and transition assistance program is essential to ensure that the defense build down is structured in a manner that enhances the long-term ability of the United States to maintain a strong and vibrant national defense technology and industrial base.

(b) POLICY.—(1) It is the policy of Congress that the United States attain its national defense objectives through the development and implementation of defense conversion and transition assistance programs that have the following objectives:

(A) Facilitating the transition of military personnel, civilian employees of the United States, and defense industry workers affected by the defense build down in a manner which recognizes the contributions of those individuals to the national defense and promotes continued national access to, and benefit from, their skills and capabilities.

(B) Assisting communities in adjusting to the impact of reduced defense spending in recognition of the contributions that such communities have made to the national defense of the United States.

(C) Strengthening the ability of the national defense technology and industrial base to meet the following national security objectives:

(i) Supplying and equipping the force structure necessary to meet near-term national security requirements.

(ii) Sustaining production, maintenance, repair, and logistics for operations of various durations and intensity.

(iii) Maintaining advanced research and development activities to provide the Armed Forces of the United States with systems capable of ensuring technological superiority over potential adversaries.

(iv) Reconstituting within a reasonable period the capability to develop and produce supplies and equipment, including technologically advanced systems, in sufficient quantities to prepare fully for a major war, major national emergency, or major mobilization of the Armed Forces.

(D) Achieving the national defense technology and industrial base objectives described in subparagraph (C) by enhancing the opportunities for conversion of defense-dependent businesses to dual-use capabilities.

(2) It is the policy of Congress that not less than $1,200,000,000 of the funds authorized to be appropriated by this Act be available for defense conversion and transition assistance programs.

TITLE XII—CUBAN DEMOCRACY ACT OF 1992

SEC. 1201. SHORT TITLE.

This title may be cited as the "Cuban Democracy Act of 1992".

SEC. 1202. FINDINGS.

The Congress makes the following findings:

(1) The government of Fidel Castro has demonstrated consistent disregard for internationally accepted standards of human rights and for democratic values. It restricts the Cuban people's exercise of freedom of speech, press, assembly, and other rights recognized by the Universal Declaration of Human Rights adopted by the General Assembly of the United Nations on December 10, 1948. It has refused to admit into Cuba the representative of the United Nations Human Rights Commission appointed to investigate human rights violations on the island.

(2) The Cuban people have demonstrated their yearning for freedom and their increasing opposition to the Castro government by risking their lives in organizing independent, democratic activities on the island and by undertaking hazardous flights for freedom to the United States and other countries.

(3) The Castro government maintains a military-dominated economy that has decreased the well-being of the Cuban people in order to enable the government to engage in military interventions and subversive activities throughout the world and, especially, in the Western Hemisphere. These have included involvement in narcotics trafficking and support for the FMLN guerrillas in El Salvador.

(4) There is no sign that the Castro regime is prepared to make any significant concessions to democracy or to undertake any form of democratic opening. Efforts to suppress dissent through intimidation, imprisonment, and exile have accelerated since the political changes that have occurred in the former Soviet Union and Eastern Europe.

(5) Events in the former Soviet Union and Eastern Europe have dramatically reduced Cuba's external support and threaten Cuba's food and oil supplies.

(6) The fall of communism in the former Soviet Union and Eastern Europe, the now universal recognition in Latin America and the Caribbean that Cuba provides a failed model of government and development, and the evident inability of Cuba's economy to survive current trends, provide the United States and the international democratic community with an unprecedented opportunity to promote a peaceful transition to democracy in Cuba.

(7) However, Castro's intransigence increases the likelihood that there could be a collapse of the Cuban economy, social upheaval, or widespread suffering. The recently concluded Cuban Communist Party Congress has underscored Castro's unwillingness to respond positively to increasing pressures for reform either from within the party or without.

(8) The United States cooperated with its European and other allies to assist the difficult transitions from Communist regimes in Eastern Europe. Therefore, it is appropriate for those allies to cooperate with United States policy to promote a peaceful transition in Cuba.

SEC. 1203. STATEMENT OF POLICY.

It should be the policy of the United States—

(1) to seek a peaceful transition to democracy and a resumption of economic growth in Cuba through the careful application of sanctions directed at the Castro government and support for the Cuban people;

(2) to seek the cooperation of other democratic countries in this policy;

(3) to make clear to other countries that, in determining its relations with them, the United States will take into account their willingness to cooperate in such a policy;

(4) to seek the speedy termination of any remaining military or technical assistance, subsidies, or other forms of assistance to the Government of Cuba from any of the independent states of the former Soviet Union;

(5) to continue vigorously to oppose the human rights violations of the Castro regime;

(6) to maintain sanctions on the Castro regime so long as it continues to refuse to move toward democratization and greater respect for human rights;

(7) to be prepared to reduce the sanctions in carefully calibrated ways in response to positive developments in Cuba;

(8) to encourage free and fair elections to determine Cuba's political future;

(9) to prevent Cuba from evading the United States embargo of that country through a North American Free Trade Agreement;

(10) to request the speedy termination of any military or technical assistance, subsidies, or other forms of assistance to the Government of Cuba from the government of any other country; and

(11) to initiate immediately the development of a comprehensive United States policy toward Cuba in a post-Castro era.

(B) does not include—

(i) donations of food to nongovernmental organizations or individuals in Cuba, or

(ii) exports of medicines or medical supplies, instruments, or equipment that would be permitted under section 1205(c) of this Act.

(4) except in a case in which the item to be exported could be used in the production of any biotechnological product.

(d) REQUIREMENTS FOR CERTAIN EXPORTS.—

(1) ONSITE VERIFICATIONS.—(A) Subject to subparagraph (B), an export may be made under subsection (c) only if the President determines that the United States Government is able to verify, by onsite inspections and other appropriate means, that the exported item is to be used for the purposes for which it was intended and only for the use and benefit of the Cuban people.

(B) EXCEPTION.—Subparagraph (A) does not apply to donations to nongovernmental organizations in Cuba of medicines for humanitarian purposes.

(2) LICENSES.—Exports permitted under subsection (c) shall be made pursuant to specific licenses issued by the United States Government.

(e) TELECOMMUNICATIONS SERVICES AND FACILITIES.—

(1) TELECOMMUNICATIONS SERVICES.—Telecommunications services between the United States and Cuba shall be permitted.

(B) If only partial payments are made to Cuba under subparagraph (A), the amounts withheld from Cuba shall be deposited in an account in a banking institution in the United States.
